

Power-Band™

Silicone Compression Taping

TRIPLE-COMPRESSION

bodyvine®
— Your Lifestyle Of Health —

Power-Band™
Silicone Compression Taping

Provides extra and target compression to knee joint and increases proprioception during movement.

BreathGrip™
Anti-slip silicone tech

Anti-slip pattern grips the target muscles and tendons .

TRIPLE-COMPRESSION **KNEE STABILIZER**

-With Power-Band Compression Taping-

Sun Protection
UPF 50⁺

TRIPLE-COMPRESSION

KNEE STABILIZER -With Power-Band Compression Taping-

FEATURE

- Patented three-layer compression pattern sandwiches built-in *Power-Band*™ compression tapings.
- The bottom layer : All-day comfort and wicking fabric to provide gentle and fundamental compression to the knee.
- The middle layer : Built-in *Power-Band*™ taping to provide extra and targeted compression to knee joint and increases proprioception during movement.
- *Power-Band*™ designed to cover upper portion of calf and help reduce muscle vibrations.
- The top layer : Elastic *Power-Mesh* material to provide breathable and restrained compression to the overall knee support.
- *Power-Mesh* gives a unique look to the product.
- *BreathGrip*™ silicone anti-slip pattern effectively stops the sleeve from sliding, leaves skin with no mark, and stimulates the proprioception at the contact muscles and tendons.
- 3D cutting makes the sleeve comfortable to wear and gives a sharp fit and neat look to the leg.
- Provides knee joint support/stability with enough freedom of knee movement.
- Aids in high performance and rapid recovery.
- Decrease knee pain symptoms.
- Easy to slip on and off.
- Fit discreetly under clothing.
- Sun protection UPF 50+

FOR

Sports performance, training and protection.
General knee pain, recovery and prevent re-injury.

SPECIFICATION

TRIPLE-COMPRESSION THIGH SLEEVE

With Power-Band Muscle Support Taping-

Sun Protection
UPF 50⁺

TRIPLE-COMPRESSION

THIGH SLEEVE -With Power-Band Muscle Support Taping-

FEATURE

- Patented three-layer compression pattern sandwiches built-in *Power-Band*™ compression tapings.
- The bottom layer : All-day comfort and wicking fabric to provide gentle and fundamental compression to the thigh.
- The middle layer : Built-in *Power-Band*™ silicone taping provides thigh muscles and Iliotibial band with extra and targeted compression and support. Also gives better track to Iliotibial band and increases proprioception during movement.
- Reduce vibration of active muscles and enhance exercise endurance and performance.
- The top layer : Elastic *Power-Mesh* material to provide breathable and restrained compression to the overall thigh support.
- *Power-Mesh* gives a unique look to the product.
- 3D cutting makes the sleeve comfortable to wear and gives a sharp fit and neat look to the leg.
- Aids in high performance and rapid recovery.
- Decrease thigh pain symptoms.
- Easy to slip on and off.
- Fit discreetly under clothing.
- Sun protection UPF 50+

FOR

Sports performance, training and protection.
General thigh & lateral knee pain, recovery and prevent re-injury.

SPECIFICATION

TRIPLE-COMPRESSION **CALF SLEEVE**

-With Power-Band Muscle Support Taping-

Sun Protection
UPF 50⁺

TRIPLE-COMPRESSION

CALF SLEEVE -With Power-Band Muscle Support Taping-

FEATURE

- Patented three-layer compression pattern sandwiches built-in *Power-Band*™ compression tapings.
- The bottom layer : All-day comfort and wicking fabric to provide gentle and fundamental compression to the calf.
- The middle layer : Built-in *Power-Band*™ silicone taping, which is made of a unique and very elastic silicone formula, provides calf muscles and Achilles tendon with extra and targeted compression and support, and also increases proprioception during movement.
- Provides support to medial and lateral muscle groups including tibialis posterior and peroneus muscles.
- The top layer : Elastic *Power-Mesh* material to provide breathable and restrained compression to the overall calf sleeve.
- *Power-Mesh* gives a unique look to the product.
- 3D cutting makes the sleeve comfortable to wear and gives a sharp fit and neat look to the leg.
- Reduce vibration of active muscles and enhance exercise endurance and performance.
- Aids in high performance and rapid recovery.
- Decrease calf pain symptoms.
- Easy to slip on and off.
- Fit discreetly under clothing.
- Sun protection UPF 50+

FOR

Sports performance, training and protection.
General Calf pain, recovery and prevent re-injury.

SPECIFICATION

TRIPLE-COMPRESSION ELBOW STABILIZER

-Adjustable / With Power-Band Compression Taping-

Sun Protection
UPF 50⁺

TRIPLE-COMPRESSION

ELBOW STABILIZER -Adjustable / With Power-Band Compression Taping-

FEATURE

- Patented three-layer compression pattern sandwiches built-in *Power-Band*™ compression tapings.
- The bottom layer : All-day comfort and wicking fabric to provide gentle and fundamental compression to the elbow.
- The middle layer : Built-in *Power-Band*™ taping to provide extra and targeted compression to elbow joint and increases proprioception during movement.
- The top layer : Elastic *Power-Mesh* material to provide breathable and restrained compression to the overall elbow support.
- *Power-Mesh* gives a unique look to the product.
- *Power-Band*™ compression strap provides adjustable pressure and support to relieve pains related to tennis/golf elbow.
- 3D cutting makes the sleeve comfortable to wear.
- Provides elbow joint support/stability with enough freedom of movement.
- Aids in high performance and rapid recovery.
- Decrease elbow pain symptoms.
- Easy to slip on and off.
- Fit discreetly under clothing.
- Sun protection UPF 50+

FOR

Sports performance, training and protection.
General elbow pain, recovery and prevent re-injury.

TRIPLE-COMPRESSION **WRIST STABILIZER-PLUS**

-Adjustable / With Power-Band Compression Taping-

Sun Protection
UPF 50+

TRIPLE-COMPRESSION

WRIST STABILIZER-COMFORT / PLUS -Adjustable / With Power-Band Compression Taping-

- Patented three-layer compression pattern sandwiches built-in *Power-Band*™ compression tapings.
- *Power-Mesh* gives a unique look to the product.
- Provides wrist joint support/stability with enough freedom of movement.
- Aids in high performance and rapid recovery.

WRIST STABILIZER-COMFORT

FEATURE

- The bottom layer : All-day comfort and wicking fabric to provide gentle and fundamental compression to the wrist.
- The middle layer : Built-in *Power-Band*™ taping to provide extra and targeted compression to wrist joint and increases proprioception during movement.
- The top layer : Elastic *Power-Mesh* material to provide breathable and restrained compression to the overall wrist support.
- *Power-Band*™ compression strap provides adjustable pressure and support to relieve pain related to injured and weak wrist.
- 3D cutting makes the sleeve comfortable to wear.

WRIST STABILIZER-PIUS

FEATURE

- Wrap design offers adjustable compression and individualized support.
- The bottom layer is an all-day comfort and wicking fabric.
- The middle layer : Built-in *Power-Band*™ taping gives extra compression and support.
- The top layer : Elastic *Power-Mesh* material to provide breathable and restrained compression to the overall wrist support.
- *Power-Band*™ compression wrap supports the muscles and tendons to relieve pain with stable support.

- Decrease wrist pain symptoms.
- Easy to slip on and off.
- Fit discreetly under clothing.
- Sun protection UPF 50+

FOR

Sports performance, training and protection.
General wrist pain, recovery and prevent re-injury.
